GRAND CONSOLIDATED LOTTERY.

Through by Express. MEXICAN MUSTANG LINIMENT.

MESSAS. A. G. BRAGE & Co.—Gentlemen: We have been using your MEXICAN MUSTANG LINIMENT with the most perfect success. One of our most valuable Express horses had been much troubled by large swellings or tumors on the fetlocks; they had grown larger than hen's eggs. Besides being disfigured by these appendages, the limbs and joints appeared quito stiffened, swollen and lame. We had tried many Liniments and other remedies, but nothing appeared to produce any effect upon them. We would willingly have given twenty-five dollars to have had then removed, and the horse restored to soundness. Our hostler obtained some of your Liniment, and applied it without our knowledge. A few days ago he called our attention to the horse, and to our surprise and gratification, his legs were perfectly smooth, the tumors having entirely disappeared! We asked him by what magic he had effected such a remarkable cure? His reply was that he had been using the MUSTANG LINIMENT on them about ten days, and the result was the entire removal of the tumors without producing any soreness or leaving a scar.

We therefore take great pleasure in recommending the Liniment, and shall continue to use it whenever occasion requires, in preference to any other preparation, so long as it produces such remarkable results.

KINGSLEY & CO.,

Southern and Eastern Express, No. 1 Wall street, June 30, 1852. corner of Broadway, New York. Since the above certificate was given, Messrs. Kinsley & Co., inform us that one of their drivers was thrown from his wagon in the upper part of the city, and very ladly bruised, the wagon passing over his body. He was taken into a Doctor's office close by, and the Physician told him to use the Mustang Liniment, as he had recently tried it in a similar case with freat access. It ed dis so, and all the soreness, lameness, and stiffness was removed, so that the next day he was about his business as usual.

New York, July 31, 1852.—We hereby certify that we have used the Compound known as the Mustang MEXICAN MUSTANG LINIMENT.

April 26, 1853.

(13-We are authorized to announce Mr. WILLIAM CHAMBERS as a candidate for Constable in Disrict No. 3, by Many Votess.

April 26, 1853.

The County Court of Jefferson having

ordered the election of an additional Constable in District No. 3. we recommend Capt. JOHN REED as a suitable person to fill the post. Capt. REED is a worthy man and will make a good officer.

April 19, 1853.

Many Voters.

New York, July 31, 1852.—We hereby certify that we have used the Compound known as the Mustang Liniment, and have no hesitation in recommending it the best article we have ever used for the cure of Sprains, Galls, Cuts, Bruises, etc., on horses. All who toubt this, will please call on the undersigned, and they will be happy to afford all other information in which will be made to order at the shortest notice.

The above Goods are opeaed in the new Store at the junction of the Winchester & Potomac and the B ltimore & Ohio Railroads, andare offered to the public on as low terms as can be purchased in the cities, and respectfully invites the public to call and examine for themselves.

6. W. CUTSHAW, Agent.

By order of the Colonel,

J. W. ROWAN,

Adjutant 55th Regiment Virginia Militia.

NOTICE.

the purpose of checking and holding permanently a boat when entering the locks or any other close place, through which it may pass, on the several canals.—The invention is as follows, viz: A sill of proper dimensions laying across the boat, in the centre of which is a fullerum or axle to work a lever or tiller on, parallel to and on the top of the sill are two pieces of timber, of suitable size, for the purpose of sliders; at the centre above named, in the sill, is also a pivot fulcrum or axle for the lever to take hold of and work the sliding pieces in straight lines with, and in opposite directions to, each other, jutting the ends of the sliding pieces out of the sides of the boat and thus check its headway, by rubbing against the mason work of the lock. The lever when placed on the two sliding pieces will be in form as in Euclid, book 1st, propositions \$7tb, 23tb, and 29tb, of a line falling on two straight lines, and the changes by the required moving of the straight line producing at the same time different angles at their junctures. The same movement of the two sliding pieces may be effected by other fixture, such as the placing between the two sliding pieces a cog-wheel, to turn with a crank or lever, or by placing in a line with them something operating as a jack-serow, or other something of the kind which will produce the required operation, such as two pieces, one end of each piece made fast to a sliding piece and the two ends joined, so as to form an obtuse angle, which when drawn to a straight line will produce the same operation on the two angles at opposite sides, such as would form the rhambus or rhambaid, all of which will answer the same purpose; rollers may be placed in different ways on the end of the sliding pieces that juts out if such be required. I think the above will sufficiently describe the form of the check, and the line or lever falling on the other two straight lines or pieces will fully illustrate the fluxional co-efficient or inoving same.

N. B. Mr. SAM: THE undersigned has been appointed Administrator of WM. LISLE BAKER, deceased. He requests all persons having claims against the deceased to pre-sent them for settlement, and all who know that they are indebted to the same, are respectfully requested to scitle their accounts as soon as convenient.
R. WORTHINGTON.

DENTIST, Is now at Carter's Hotel, Charlestown, Va Prince of Tooth Extractors, and the Chief of Surgeon Dentists! He extracted one for rach of its. We consider his method original and more in it, and less painful than any other that has come within our notice.—He operates without endangering the gum or injuring the jaw, and ness apparently but little force, and consequently regarding all the principles of his plan, it is owndently the best that has been, we could be derived to remove teeth; all other methods when compared to his, are murderous in the operation, alarming to the united and imperfect in manner. BYRD CARTER, M.D.

J. F. CALDWELL,

G. W. NETTLETON, M.D. We not only subscribe to the above certificate signed by Dr. Carter and others, but will add, that Dr. Caldwell has fully and most satisfactorily explained to us the principles on which he bases his operations on the Teeth, and we with pleasure state that his remedial treatment of the teeth in correcting pain, abating derangement, and extracting Teeth, is not only scientific, but comparatively the safest of any of which we have any knowledge. If madical men will consult him, we are induced to believe they will be fully satisfied of the correctness of his views. fied of the correctness of his views.

R. E. ROBINSON, M.D.

[See handbills.] G. W. VARNUM, M.D.
